COMPANY FEATURE: TSHOLOFELO MANUFACTURERS

Tsholofelo Manufacturers is situated at the NWDC Bathlaros Small Industries.

Occupying a large area of 4 by 50 M², owner Jack Motlhabane has mastered his production line by dividing the business into sectors inclusive of a manufacturing area, storage areas and a reception area.

This keen and friendly businessman clearly has a passion and a talent for woodwork. Crafting furniture and coffins with meticulous detail, his love for his work can be seen in the final product.

Owner Jack Motlhabane

It is with the above in mind that Jack has not given up on his dreams. Manufacturing and selling coffins, both big and small and with various wood finishings, has led to Jack realising that there is a definite need in the market and in the area for a funeral director and parlour. This need was identified from numerous consultations with clients purchasing his furniture.

Taking the above into consideration, Jack intends venturing into unknown territory in 2019, namely that of adding the profession of a funeral director to his already vast list of skills.

Tsholofelo Manufacturers is open from Monday to Friday.

To make an appointment contact Jack on 053 774 1405 or 072 255 0460.
