The company operates in the primary agricultural market segment, predominantly concentrating on crops and livestock on agricultural land. It is situated between the towns of Ventersdorp and Lichtenburg in the Makokskraal area. The farm is known as a portion of Rooipoort and Wildfontein in the Province of North West.

The farm consists of both crop farming and livestock farming. The animals are naturally fed and well suited for human consumption. On livestock the farmer concentrates on cattle, goats, sheep and pigs which are sold to both auction houses and walk-in customers on a random basis. The farmer delivers

maize and sunflower to some nearby silos, while some of the maize is used as feed for the livestock on the farm. The farm is targeting the informal market, and do not have market restrictions.
